Geographical Area Covered: East Midlands

Who Is Training For?:

Nursing, care, support and activity staff

Student social workers and/or nurses on placement

People working with service users with a wide range of needs:

- Autistic Spectrum Conditions
- Learning Disabilities Behavioural, Social and Emotional Difficulties
- A recognised 'Challenging Behaviour'

Accredited Courses:

Course Code	Duration	Course Title
PITAS/10051/1	2 day	Principles of Positive Behaviour Support inc. breakaway techniques
PITAS/10051/1a	1 day	Refresher of Principles of Positive Behaviour Support inc. breakaway techniques

General Approach to Teaching Physical Interventions:

- Breakaway techniques will be the only physical interventions taught.
- Any intervention/reaction will be gradual and graded (proactive, active, reactive and post reactive)
- Embrace and advocate the use of any physical intervention to be a final resort
- We actively support the rights and welfare of individuals accessing care and support services and therefore positive behaviour support is the focus and not the use of physical interventions.
- To be transparent in the delivery of care and support.

Relevant Training Topics :

- The organisational view point
- The importance of communication
- What is 'challenging behaviour'?
- What impact does 'challenging behaviour' have to the person and/or others?
- Triggers to 'challenging behaviour'
- The importance of recording incidents, where to record incidents and reporting procedures
- The assault cycle and its relevance
- The influence of staff, their values and their behaviours/stress
- Various pieces of legislation such as Mental Capacity Act, Human Rights Act, Health and Safety Act
- Safeguarding Adults at Risk
- Positive Behaviour Support Plans
- Risk Assessment
- Reinforcement Strategies
- Autism and Aspergers Awareness
- Learning Disability Awareness
- Breakaway Techniques
