

HOPE — people with learning disabilities fighting sexual exploitation

HOPE is a project about sexual exploitation. It is for young people with learning disabilities and those who support them.

It is a peer education project. This means that people with learning disabilities are being supported to run FREE workshops for:

- People with learning disabilities.
- Family and professional carers.
- Specialist services, like sexual abuse services and the Police.

The workshops will cover:

- ◆ What is sexual exploitation?
- ◆ What does it mean for people with learning disabilities?
- ◆ How can I tell it is happening?
- ◆ What can I do about it?

Get involved!

- ◇ If you have a learning disability, you could be a trainer!
- ◇ If you support someone, book a workshop
- ◇ Or you could become a HOPE Champion. Ask us how.

To find out more or to book a workshop contact the South West Coordinator, Rod Landman on 07748 560262 or email r.landman@bild.org.uk

The project is funded by the European Union until June 2019. HOPE England is working with partners in Bulgaria.
