<b>PI System/model</b>	PROACT-SCIPr-UK® is 'a whole approach' to supporting individuals who challenge'
<b>geographical area covered</b>	UK
<b>Who is training for?</b>	Primarily for Children and Adults with An Autistic Spectrum Condition, a Learning Disability, a Special Educational Need (both those with statements and without), and Severe Behavioural, emotional and social difficulties
<b>Accredited Courses</b>	Instructor Course
<b>General Approach to Teaching Physical Interventions</b>	
PROACT-SCIPr-UK® is 'a whole approach' to working with individuals who present with severe challenging behaviour. The focus is on early intervention and establishing the function of behaviour in order to devise a suitable behaviour support programme to encourage consistency of management and to enable learning for the individual. Physical Intervention is very much a last resort and is only taught if required.	
<b>Relevant Training Topics</b>
