

Adrian Burke Biog

I joined First Choice in December 2016 as Chief Executive having spent the last 5 year years managing The Salvation Army's Housing and Homelessness work in England and Wales. I came with a strong background in all elements of supported housing including service design and delivery, contract negotiation bid writing and contract implementation.

Coming into First Choice has been an amazing opportunity to work with a highly skilled and dedicated team on how deliver innovation for our tenants. It was clear that First Choice are engaged in some unique ventures in Wales and it is here that we wish to focus on opportunities to innovate. With how services are commissioned, and delivered constantly changing our challenge is to remain at the forefront of designing schemes which promote independent living.
