

Job description: eLearning Designer

Bild are looking for an experienced eLearning designer with strong eLearning design skills to join our communications team for 4 months, on a temporary contract basis.

You will have a demonstrable portfolio of eLearning to support your application.

We are in the process of transforming our learning and development offer to include high quality, best in class, eLearning and blended learning programmes which will be hosted on our Learner Management System, Talent LMS.

Package:

Immediate start.

Salary: £25,000 FTE (actual £8,300 over 4 months)

Flexibility can be offered. Full time is preferred (37.5 hrs per week), but hours can be worked flexibly to suit. 4 days (30 hours) would be considered for the right person.

Key Attributes

Proven experience in designing and implementing eLearning programmes.

Experience of documenting storyboarding and scripting eLearning.

Planning and organising to deadlines.

Ability to work with a wide range of people including those new to eLearning to ensure eLearning effectively communicates key messages, processes and technical instruction.

Highly motivated and methodical.

Knowledge of Articulate and Storyline.

Transfer SCORM compliant eLearning Materials onto the LMS (Talent).

Knowledge of working with Learning Management systems.

How to apply

Please send your CV into recruitment@bild.org.uk. Apply now, please don't delay, as we will consider applicants as they come in and close the advert once we have recruited the right person.
